## Dog boarding Sydney

### ***Your dog is our priority***

We understand how important it is for you to have your four-legged family member well looked after whilst you are away. We also know how hard it is to leave your much loved dog in the care of others, so we promise to treat them like our own dogs

***Puppy Playground dog hotel in Sydney has been designed especially for the comfort and happiness of small to medium sized dogs.***

Our dog boarding facility in Sydney isn't a kennel. Our boarding guests won't be locked up in small cages in a very stressful environment on their own. To provide your dog the best dog boarding experience in Sydney.

***We believe that no dog should be boarding in a huge dog boarding facility.***

They can be very stressful and traumatising places for even the most confident dogs. The reality is that when you have large number of dogs together, the environment will be loud and the dogs won't have much room to stay in.

***Every dog deserves lots of human interaction, cuddles and attention.***

And every dog deserves to be left alone when they want to. That's why our loving staff will keep an eye on the dogs at all times supervising their behavior. You don't get this kind of personalized dog boarding service in a huge dog hotel.

***During the day your dog will roam free in our comfortable play areas with toys and other dogs.***

For the night your dog will sleep in a smaller suite designed to keep your dog as comfortable and contented as possible in our dog hotel in Sydney. The sleep suite is spacious with comfortable flooring and an elevated bed to ensure a good night sleep.
